Test Case #	Test Case Description	Test Steps	Expected Result
		Prerequisite: The user is at the 'Home' page	
1.1	User wants to see the dog listings available	Click on the 'Browse Dogs' button on the hero image.	User is navigated to the 'Browse Dogs' page and can see all the dog listings available in cards. There is also a search accordion.
1.2	User wants to rehome his/her dog	Click on the 'Learn More>' button under 'Rehome A Dog'.	User is navigated to the 'Rehome' page and can add dog details in a form.
1.3	User wants to know more about the adoption process	Click on the 'Learn More>' button under 'Adoption Process'.	User is navigated to the 'Adoption Process' page and can see the step-by-step process to adopt a dog.
		Prerequisite: The user is at the 'Rehome' page	
2.1	User wants to create a dog listing	1) Fill up the form. All fields are required except health status and family status. 2) Click on 'Add' button on the bottom right.	If user enters the incorrect details, validation errors will be shown accordingly. If user enters the correct details, user will be navigated to the 'Browse Dogs' page and can see the new dog listing user just successfully created.
2.2	User types halfway and decides not to create a dog listing	Click on the 'Cancel' button on the bottom right	A modal will pop up asking if user want to confirm discard changes. Upon clicking 'Discard Changes', user will head back to the 'Home' page.
		Prerequisite: The user is at the 'Browse Dogs' page	
3.1	User wants to search for dog listings	Type into the 'Keyword Search' and/or 'Age' inputs in the search accordion.	Results that match the keyword and age criteria will be displayed instantaneously. A green alert will show the number of results if there are results found. Else, a red alert will show 0 results found.
3.2	User wants to filter dog listings	Filter the listings by checking the radio buttons and/or checkboxes in the search accordion.	Results that match the checked radio buttons and checkboxes will be displayed instantaneously. A green alert will show the number of results if there are results found. Else, a red alert will show 0 results found.
3.3	User wants to view detailed dog details	Click on 'More>' button on the card.	A modal will pop up showing the detailed information of the dog.
3.4	User wants to reset search and filter	1) Click on 'Reset' button at the bottom of the accordion.	Dog listings will be resetted and display all dogs available.
3.5	User wants to close modal with dog details	Click on 'X' icon on top right of modal or click away from the modal.	The modal will disappear, displaying the 'Browse Dogs' page.
3.6	View adoption process	1) Click on 'More>' button on the card. 2) Click on 'Adoption Process' button at the bottom right.	User is navigated to the 'Adoption Process' page and can see the step-by-step process to adopt a dog.
3.7	User wants to edit dog listing	1) Click on 'More>' button on the card. 2) Click on 'Edit' button at the bottom right. 3) Click on 'Update' button at the bottom right.	User is navigated to the 'Update' page and can see the existing information of the dog listing. Upon clicking on 'Update', the dog listing will be updated and it will open up as a modal with the updated information.
3.8	User wants to delete dog listing	1) Click on 'More>' button on the card. 2) Click on 'Edit' button at the bottom right. 3) Click on 'Delete' button at the bottom left. 4) Click on 'Confirm Delete' button when the pop-up appears.	User is navigated to the 'Update' page and can see the existing information of the dog listing. Upon clicking on 'Delete', a pop-up will appear to double-confirm if the user really wants to delete. Upon clicking on 'Confirm Delete', the dog listing is deleted from the database and the user is navigated back to the 'Browse Dogs' page.
3.9	User wants to cancel editing of the dog listing	1) Click on 'More>' button on the card. 2) Click on 'Edit' button at the bottom right. 3) Click on 'Cancel' button at the bottom right. 4) Click on 'Discard Changes' button when the modal appears.	User is navigated to the 'Update' page and can see the existing information of the dog listing. Upon clicking on 'Cancel', a modal will appear asking if he wish to discard his changes. Upon clicking on 'Discard Changes', user will be navigated back to the 'Browse Dogs' page.
